

Cinija

(*Zinnia elegans*, L.)

Cinija je jednogodišnja ukrasna biljka poznata po intenzivnim bojama cvjetova, uglavnom narančastim, crvenim, žutim, rozim...

Privlači pčele i leptire te su vrlo otporne na sušu.

Vrlo se lako uzgaja iz sjemena pa je česta u školskim vrtovima.

Cvjeta tijekom ljeta sve do prvih mrazova u kasnu jeseni.

Zinnia is an annual ornamental plant known for its brightly colored flowers, including orange, red, yellow, and pink. It attracts bees and butterflies and is highly resistant to drought.

Zinnias are easy to grow from seed, making them popular in school gardens. They bloom throughout the summer until the first frosts in late autumn.
