

Pelin

(*Artemisia absinthium*, L.)

Pelin je višegodišnja biljka iz porodice glavočika koja ima vrlo gorak okus. Koristi se za poticanje probave. Sadrži tujon koji može biti štetan u velikim količinama. Ima srebrnasto zelene listove.

Koristi se i u proizvodnji poznatog pića absinta. Njegov jak miris također odbija insekte i štetnike.

Common wormwood is a perennial plant from the daisy family, known for its very bitter taste. It is commonly used to stimulate digestion. It contains thujone, which can be harmful in large amounts. Its leaves have a distinctive silvery-green color.

It's also used in the production of the well-known drink absinthe. Its strong scent naturally repels insects and pests as well.
