

## Neven (*Calendula officinalis*, L.)

Neven je poznat po svojim narančastim cvjetovima i snažnim ljekovitim svojstvima. Koristi se za izradu krema i masti za kožu. Djeluje protuupalno i pomaže kod rana, opekline i iritacija. Često se koristi i u čajevima. Smatra se jednom od najvažnijih biljaka u prirodnoj kozmetici.

Calendula is known for its bright orange flowers and powerful healing properties. It is commonly used to make skin creams and ointments. It has anti-inflammatory effects and helps with wounds, burns, and skin irritations. Calendula is also often used in teas. It is considered one of the most important plants in natural skincare and herbal cosmetics.
